WHY MJ INDUSTRIAL SOLUTIONS

Supply that works around your operation

A responsive, independent supplier for trade customers, fleets, valeters, workshops and industrial users.

A practical product range

Core vehicle-care products sit alongside workshop cleaners, specialist chemicals and bulk industrial supply - reducing the number of suppliers you need to manage.

Pack sizes to suit the job

From handy retail and valeting packs through to 25L, 200L and IBC quantities on selected products. Ask us about trade ordering and volume requirements.

Support beyond the container

Product information, technical data and safety documentation are available for established products. We can help match the product and pack format to the application.

Trade and private-label conversations

For distributors and cleaning businesses, ask about repeat supply, larger-volume purchasing and private-label opportunities.
